To Stream Music: updated 12/10/18

1. To create your own playlist (These instructions work for both app and computer)
    a. Go to "My Music".
    b. Click on the Playlist Tab.
        i. Click on the + sign to create a new playlist
        ii. Name the Playlist.
        iii. Go back to My Music and click on the Music tab.
        iv. Go to the song in your collection you want to add to the playlist
            1. To add a song to a playlist you must have already downloaded it.
        v. There are three dots in a vertical line next to the song information, click on that.
        vi. Click on "Add to Playlist".
        vii. When you have your playlist ready, go back to the Playlist and click on play.
            1. Remember you have 5 hours of streaming per week.
2. To use a playlist already on Freegal
    a. On the Home screen there are featured Playlists. You can use one of them or search for one using the search bar at the top of the screen.
        i. Once you find a Playlist, click on the one you want to list to.
        ii. There will be a list of songs under the playlist. You have two options above them: shuffle or stream.
            1. Shuffle will randomize the songs in the list. Stream will play them in the exact order you see.
        iii. Click either stream or shuffle and the box next to those options. All the songs will have a box on the right that should be check.
        iv. Press play on one of the songs. An option box for playing/pausing, volume, etc will appear at the bottom of the screen.
        v. Enjoy the music! Just remember you are limited to 5 hours per week.
